How it works:

- To use the Import Duty Tax Look Up, the tariff code of the import must be known. If this is not the case, click Button 1 to use our Tariff Code Look Up Tool.
- Click on Button 2 to open the Tariff Book.
- Press ‘Control F’ on your computer keyboard. A search box will appear on your screen.
- Type the first four digits of your tariff code (the heading) into the search box and click enter. This will navigate you to the right area in the Tariff Book.
- Scroll down until you have found a match to your tariff code. If the 7th and 8th digits of your tariff code are .00, only the first 6 digits (subheading) will be listed in the Tariff Book.
- The Rate of Duty columns show duties applicable to your tariff code according to Schedule 1 Part 1 of the Customs Act. General duties are charged where no preferential rate or certificate of origin is applicable to an import. Learn more about certificates of origin by clicking here.
- Use your tariff code heading to check for additional duties relevant to your goods under the following parts of Schedule 1 and 2: Click each button below to read notes relevant to your import and use ‘Control F’ to search for your tariff code heading in each document:

1. The first 6 to 8 digits of a Tariff Code is given here
2. Check that the description matches your product
3. Import Duty Rate is listed here – to calculate the amount of duty and VAT payable consult our Duty & VAT calculator
