How it works:

- To use the Excise Duty Tax and Levy Look Up, the tariff code of the manufactured product must be known. If this is not the case, click on Button 1 (right) to determine the tariff code with our Tariff Code Look Up Tool.
- Excise duties and levies on locally manufactured goods are listed in Parts 2, 3, 5, 7 and 8 of the Customs Act. Click on the buttons below to consult the Parts applicable to your product(s).
- Press ‘Control F’ on your computer keyboard. A search box will appear on your screen.
- Type the first four digits of your tariff code (the heading) into the search box and click enter. This will navigate you to the right area in the Part.
- Scroll down to find a match to your tariff code. If the 7th and 8th digits of your tariff code are .00, only the first 6 digits (subheading) will be listed in the Tariff Book.
- The Rate of Excise Duty/Levy columns show what taxes are applicable to your tariff code.
